## Clinical Pediatrics—Subject Index, 1981

### A

Abdominal pain, recurrent, serum group I pepsinogens in, 324  
 Acetabular index, 515  
 Acid elution slide test, for HbF distribution, 170  
 Acidosis, metabolic, 53  
 Acquired hypophosphatemic rickets, 646  
*Actinobacillus actinomycetemcomitans*, endocarditis and, 653  
 Adolescents(s)  
     abnormal cervical cytology in, 723  
     costochondritis-induced thoracic outlet syndrome, 602  
     dissecting aortic aneurysm in, 578  
     pregnancy in, 335  
     refractory hypertension in, 587  
 Adoption, of handicapped children, planning for, 292  
 Alcohol sponging, 782  
 Alkaline electrophoresis, in inherited hemoglobinopathies, 163  
 Allergy, self-help program for asthma in residential treatment center, 453  
 Ambulatory childhood pneumonias, radiographic findings and etiologic diagnosis, 686  
 Ambulatory pediatrics, 241  
 Amebic meningoencephalitis, 486

812

Ampicillin resistance, in *Hemophilus influenzae* type B septic arthritis, 139  
 Anemia  
     copper deficiency, 226  
     in hypothyroidism, 696  
     iron deficiency, pica and, 783  
 Anthropometric data, children with/without sickle cell trait, 705  
 Antibiotics, in acute otitis media, 445  
 Aplasia cutis congenita, 470  
*Arizona hinshawii* meningitis, 483  
 Arthritis  
     pneumococcal, 105  
     septic, 139  
 Aseptic meningitis syndrome, bacterial infection and, 147  
 Aseptic necrosis, of capital femoral epiphysis, 19  
 Aspergillosis, 357  
 Aspiration pneumonia, in institutionalized children, 117  
 Asthma  
     pediatric and psychiatric collaboration in management of, 772  
     self-help program in residential treatment center, 453  
 Audiology, hearing assessment of at-risk infants, 257  
 Audiometry, in young infants, current status, 257

## SUBJECT INDEX

### B

- Bacterial endocarditis, *P. aeruginosa* and, in child with tetralogy of Fallot, 144
- Bacterial infections, in newborns, 385
- Bacteriological bit, 791
- Barlow provocation test, in congenital dislocation of hip, 515
- BCB (brilliant cresyl blue) test, in hemoglobinopathies, 167
- Behavior-observation audiometry (BOA), 259
- Betke Kleihauer strain, for HbF, 170
- Biliary tract
  - cholelithiasis and acute lymphocytic leukemia, 678
  - extrahepatic biliary atresia associated with cyanotic congenital heart disease, 64
  - pancreatitis, cholecystitis and choledocholithiasis in infectious mononucleosis, 131
- Bleeding, in gastroesophageal reflux, 8
- Blue nevus, vs. Mongolian spot, 718
- Book reviews
  - Allergies and Your Family, Doris J. Kapp, 290
  - Behavioral Pediatrics: Psychosocial Aspects of Child Health Care, Stanford B. Friedman and Robert A. Hoekelman (eds.), 29
  - Laryngo-Tracheal Problems in Pediatric Patient, Gerald B. Healy, et al (eds.), 365
  - Mental Retardation and Developmental Disabilities, Vol. XI, Joseph Wortes (ed.), 365
  - Neonatal Hyperbilirubinemia (Monographs in Neonatology Series), Gerard B. Odell, 216
  - See How They Grow: Monitoring Child Growth for Appropriate Health Care in Developing Countries, David Morley and Margaret Woodland, 253
  - Status of Curability of Childhood Cancers, Jan van Eys and Margaret P. Sullivan (eds.), 244
  - Textbook of Child Neurology, 2nd ed, John H. Menkes, 244
- Botulism, in infants, 90
- Breast-feeding
  - patterns in a Nigerian maternity center, 412
  - prolonged exclusive, iron sufficiency and, 625
  - trends in, 751
- Burns, bone and joint changes following, 734

### C

- Calcium, common food sources of, 638
- Campomelic syndrome, in phenotypic females with 46,XY karyotype, 214
- Candidiasis, oral pacifier contamination and, 393
- Carbenicillin, in aspiration pneumonia, 117
- Carcinoma, cervix, risk factors, 725
- Cardiology
  - Actinobacillus* endocarditis, periodontal disease and, 653
  - cyanotic congenital heart disease, extrahepatic biliary atresia and, 64
  - diagonal earlobe crease as coronary risk factor, 739
  - dissecting aortic aneurysm, 578
  - dopamine-induced paroxysmal supraventricular tachycardia, 541

- neonatal heart rate pattern, effect of delivery on, 408
- P.seudomonas aeruginosa* endocarditis in child with tetralogy of Fallot, 144
- patent ductus arteriosus, RBC survival in, 349
- ventricular septal defect, RBC survival in, 349
- Wilms' tumor, intracardiac extension, 359
- Carotene, 26
- Carotenemia, 25
  - differential diagnosis, 28
  - diseases associated with, 27
- Cellulose acetate electrophoresis, in hemoglobinopathies, 163
- Cerebrospinal fluid, WBC and LDH in, in enterovirus type 71 meningitis, 327
- Cervical intraepithelial neoplasia, 723
- Cesarean childbirth, NIH consensus development conference, 555
- Chest pain, psychogenic, 788
- Chickenpox, 111
- Child abuse, pica and, 783
- Child development
  - cleft lip/palate, 459
  - craniofacial anomalies, 37
- Chiropractic, and child care, 362
- Cholecystitis, in infectious mononucleosis, 131
- Choledocholithiasis, in infectious mononucleosis, 131
- Cholelithiasis, acute lymphocytic leukemia and, 678
- Cholestyramine, eosinophilia and, 675
- Chromosome aberrations, potential for survival and reproduction in adult human population, 471
- Citrate agar gel electrophoresis, in hemoglobinopathies, 163, 164
- Citrobacter diversus*, 791
- Cleft lip/palate
  - clinical characteristics, 460
  - psychosocial functioning in young adults with, 459
- Clindamycin, in aspiration pneumonia, 117
- Clostridium perfringens* bacteremia, in newborn, 532
- Colitis, pseudomembranous, 212
- Colloid cyst, of third ventricle, sudden death due to, 218
- Community pediatrics, residency training in, 249
- Compliance
  - association of patient-held records and completion of immunization, 270
  - with cystic fibrosis therapy, 264
- Congenital anomalies
  - aplasia cutis congenita, 470
  - cleft lip/palate, 459
  - congenital absence of radii and associated tracheal atresia, 479
  - craniofacial, 37
  - maternal hydatant ingestion and, 475
  - neurologic, a review, 565
- Congenital dislocation of hip, 513
  - diagnosis, 514
  - etiology, 514
  - treatment, 516
- Congenital hypopituitarism, hyperbilirubinemia and hypoglycemia in, 523
- Congenital right diaphragmatic hernia, 422

## SUBJECT INDEX

Congenital rubella syndrome, 730  
 Congenital spherocytosis, 47  
 Congenital syphilis, physical and biochemical aspects, 81  
 Conjunctivitis, *Shigella flexneri* and, 231  
 Convulsions, febrile, pyridoxine in, 208  
 Coping style, of children with craniofacial defects, 37  
 Copper deficiency anemia, prolonged IV feeding and, 226  
 Corneal abrasion, 782  
 Corticosteroids, in Weber-Christian syndrome, 521  
 Costochondritis, thoracic outlet syndrome and, 602  
 Craniofacial anomalies, 37  
 Cyanotic congenital heart disease, extrahepatic biliary atresia and, 64  
 Cyst, colloid, 218  
 Cystic fibrosis, compliance with therapy, 264  
 Cystitis, eosinophilic, 741  
 Cytology, cervical, abnormal, 723

### D

Dactylitis, in homozygous sickle cell disease, 311  
 Dehydration, hypernatremic, excessively concentrated prepared milk formula and, 627  
 Dermatology  
   dystrophic epidermolysis bullosa, 493  
   erythema multiforme due to pyrethrum, 68  
   Mongolian spot, 714  
   subcutaneous fat necrosis of newborn, 748  
 Diarrhea, sodium and water intake in, 199  
 Disability, unexplained  
   commentary, 768  
   diagnostic dilemmas and principles of management, 761  
 Dissecting aortic aneurysm  
   in adolescent, 578  
   laboratory findings, 581  
   physical findings, 581  
   predisposing factors, 579  
   presenting symptoms, 581  
   treatment, 581  
 Disseminated intravascular coagulation (DIC), intra-uterine, hydrops fetalis and, 61  
 Dopamine infusion, paroxysmal supraventricular tachycardia due to, in infant, 541  
 Drowning, pail immersion accidents, 341  
 Drug therapy  
   in aspiration pneumonia, 117  
   levamisole in acute hepatitis, 497  
   in otitis media, acute, 445  
   in shigellosis, 127  
   Weber-Christian syndrome, 521  
 Dystrophic epidermolysis bullosa, 493

### E

Earlobe, diagonal crease in, 739  
 Education  
   general pediatric practice: an academician's challenge, 241  
   residency training in community pediatric, 249

Robert Wood Johnson Foundation National School Health Program, 344  
   teaching simulator for infant lumbar puncture, 298  
 Electric blanket syndrome, 279  
 Electrophoresis, in hemoglobinopathies, 163  
 Endocrinology  
   cretinism, goitrous, thyroid  $Tc^{99m}$  uptake in, 437  
   thyroid disease, *in vivo* radionuclide studies, 440  
 Enmeshment, 794  
 Enteric fever, 448  
 Enterovirus, type 71 meningitis, 327  
 Eosinophilia, cholestyramine and, 675  
 Eosinophilic cystitis, 741  
 Epiblepharon, 661  
 Epiglottitis, trauma to, foreign body removal and, 670  
 Erythrocyte, survival, in VSD and patent ductus arteriosus, 349  
 Ethmoiditis, *Shigella flexneri* and, 231

### F

Failure to thrive, in gastroesophageal reflux, 8  
 Family dysfunction, the electric blanket syndrome, 279  
 Family unit, psychosomatic, 794  
 Femur, nonossifying fibroma, 646  
 Fetal hydantoin syndrome, ocular manifestations, 475  
 Fever  
   enteric, 448  
   in outpatient neonates, management of, 375  
 Fibroma, nonossifying, 646  
 Fibromatosis, sonographic detection, 595  
 Folacin, common food sources of, 636  
 Food, carotene content of, 27  
 Foreign body  
   lactobezoar, 651  
   removal of, acute respiratory obstruction and, 670

### G

Gastroenterology  
   congenital diaphragmatic hernia, 422  
   fibromatosis, sonographic detection, 595  
   gastroesophageal reflux, 7  
   lactobezoar, 651  
   Mallory-Weiss syndrome in 16-wk-old infant, 59  
   pseudomembranous colitis following obstruction, 212  
   serum group I pepsinogens in recurrent abdominal pain, 324  
   superior mesenteric artery syndrome with encephalitis, 480  
 Gastroesophageal reflux, 7  
   clinical features, 7  
   diagnosis, 11  
   management, 9  
   pathophysiology, 12  
 Gaucher's disease, 667  
 Genetic disorders  
   campomelic syndrome in phenotypic females with 46,XY karyotype, 214

## SUBJECT INDEX

- in hospital management of patients with, evaluation, 178
- partial trisomy 13, 534
- triploidy syndrome in liveborn, 806
- Genetics
  - assessment of evaluation of hospitalized pediatric patients with genetic disorders, 178
  - chromosome aberrations, potential for survival and reproduction in adult human population, 471
- Globin chain electrophoresis, in hemoglobinopathies, 166
- Glucose, disappearance of, in neonatal infection, 397
- Goitrous hypothyroidism, radionuclide studies, 437
- Grief process, role of physician in, 466
- Growth, *see* Anthropometric data
- Gynecology, abnormal cervical cytology in adolescent, 723

### H

- Handicapped children
  - adoption planning, 292
  - parents of, as consumers, 363
- Heat stability test, in hemoglobinopathies, 167
- Hematology
  - acute lymphocytic leukemia, cholelithiasis and, 678
  - anemia in children and adolescents with hypothyroidism, 696
  - congenital spherocytosis is often not hereditary, 47
  - disseminated intravascular coagulation, intrauterine, hydrops fetalis and, 61
  - eosinophilia associated with cholestyramine, 675
  - inherited hemoglobinopathies, laboratory identification, 161
  - iron sufficiency, prolonged exclusive breast-feeding and, 625
  - perinatal hemorrhage associated with Kassabach-Merritt syndrome, 428
  - pica, 783
  - septicemia in childhood malignancy, 320
  - sickle cell disease, homozygous, dactylitis in, 311
  - sickle cell trait, growth status of children with, 705
  - thrombocytopenia, in neonatal infection, 402
- Hemoglobin
  - A<sub>2</sub>, quantitation of, 169
  - abnormal, *see* Hemoglobinopathies, inherited
  - F, distribution, acid elution slide test for, 170
  - quantitation of, 169
- Hemoglobinopathies, inherited
  - laboratory identification, 161
  - laboratory workup, 166
- Hemophilus influenzae*
  - type B meningitis, fever in, 192
  - type B septic arthritis, ampicillin-resistant, 139
- Hepatitis, acute viral, 497
- Hereditary spherocytosis, 47
- Hernia, congenital right diaphragmatic, 422
- Hip, congenital dislocation of, 513
  - Pavlik harness for, 516
- Hydantoins, fetal effects of maternal ingestion, 475
- Hydrops fetalis, intrauterine DIC and, 61
- Hyperbilirubinemia, in congenital hypopituitarism, 523
- Hypernatremia, 199
- Hypernatremic dehydration, 627
- Hypertension, refractory, in healthy adolescent, 587
- Hypoglycemia, in congenital hypopituitarism, 523
- Hypopituitarism, congenital, 523
- Hypothyroidism
  - anemia in, 696
  - goitrous, radionuclide studies, 437

### I

- Immunizations, completion of, patient-held records and, 270
- Infant(s)
  - audiometry in, current status, 257
  - botulism in, 90
  - dopamine-induced paroxysmal supraventricular tachycardia in, 541
  - resistant oral candidiasis in, pacifier contamination and, 393
  - 16-day-old, breast-fed, salicylate-induced metabolic acidosis in, 53
  - 16-week-old, Mallory-Weiss syndrome in, 59
  - "Spoiling," 798
  - Weber-Christian syndrome in, 521
- Infant, newborn
  - Arizona hinshawii* meningitis in, 483
  - bacterial infection in, 385
  - breast-feeding patterns in a Nigerian maternity center, 412
  - Clostridium perfringens* bacteremia, 532
  - congenital dislocation of hip, 513
  - congenital right diaphragmatic hernia, 422
  - congenital hypopituitarism, 523
  - congenital rubella syndrome, 730
  - congenital syphilis, 81
  - diagonal earlobe crease in, 739
  - feeding, historical perspectives, 613
  - heart rate patterns in, effect of delivery on, 402
  - hemorrhage associated with Kassabach-Merritt syndrome, 428
  - hypernatremic dehydration in, 627
  - infection
    - rapid glucose disappearance in, 397
    - thrombocytopenia in, 402
  - management of febrile outpatients, 375
  - subcutaneous fat necrosis, 748
  - tracheal atresia associated with congenital absence of radii, 479
- Infant, premature
  - lactobezoar, 651
  - peroneal nerve palsy as complication of multiple BP measurements, 591
- Infectious disease
  - Actinobacillus* endocarditis, 653
  - Arizona hinshawii* meningitis, 483
  - aseptic meningitis syndrome, 147
  - aspergillosis, 357
  - bacterial, in neonates, 385

# SUBJECT INDEX

- bacterial meningitis, diagnosis of, repeat lumbar puncture in, 537
    - viridans streptococci and, 526
  - botulism, 90
  - candidiasis, resistant oral, 393
  - chickenpox, 111
  - Clostridium perfringens* bacteremia, 532
  - congenital rubella syndrome, low birth weight and, 730
  - congenital syphilis, 81
  - conjunctivitis and ethmoiditis due to *Shigella flexneri*, 231
  - enteric fevers, 448
  - enterovirus type 71 meningitis, 327
  - Hemophilus influenzae* type B meningitis, 192
  - Hemophilus influenzae* type B septic arthritis, 139
  - infectious mononucleosis, 131
  - in institutionalized persons
    - aspiration pneumonia, 117
    - shigellosis, 127
  - invasive meningococcal disease, 500
  - meningoencephalitis, primary amebic, 486
  - in newborns, 375, 385, 397, 402
  - otitis media
    - acute, 549
    - acute suppurative, 99
    - persistent purulent, 445
  - pneumococcal arthritis, 105
  - pneumococcal osteomyelitis, 105
  - pneumonias, 686
  - Pseudomonas aeruginosa* endocarditis, 144
  - respiratory syncytial virus infection, 187
  - septicemia in childhood malignancy, 320
  - viral hepatitis, acute, 497
  - Infectious mononucleosis, pancreatitis, cholecystitis and choledocholithiasis in, 131
  - Institutionalized children
    - aspiration pneumonia in, 117
    - shigellosis in, successful treatment of, 127
  - Intensive care nursing, work rounds, model patient presentation for, 415
  - Iron
    - common food sources, 638
    - deficiency anemia, *see* Anemia
    - sufficiency, prolonged exclusive breast-feeding and, 625
  - Isopropanol precipitation test, in hemoglobinopathies, 167
- K**
- Kassabach-Merritt syndrome, 428
- L**
- Laboratory medicine
    - inherited hemoglobinopathies, 161
    - neonatal bacterial infection, clinical and hematologic findings, 385
  - Lactic acid dehydrogenase (LDH), in enterovirus type 71 meningitis, 327
  - Lactobezoar, 651
  - Letters to editor, 68, 366, 676
  - Leukemia, acute lymphocytic, cholelithiasis and, 678
  - Levamisole, in acute hepatitis, 497
  - Lumbar puncture
    - repeat, as diagnostic acid in bacterial meningitis, 537
    - teaching simulator, 298
  - Lycopenemia, 28
- M**
- Magnesium, common food sources of, 639
  - Malignancy, septicemia in, 320
  - Malleolar blush, 802
  - Mallory-Weiss syndrome, in 16-wk-old infant, 59
  - Manometry, in gastroesophageal reflux, 11
  - Metabolic acidosis, in breast-fed infant, maternal salicylate ingestion and, 53
  - Metabolism
    - neonatal hypernatremic dehydration due to excessively concentrated prepared milk formula, 627
    - sodium and water content of feedings for use in infants with diarrhea, 199
  - Methyl violet test, in hemoglobinopathies, 167
  - Milks(s)
    - composition, 616
    - human, storage of, 31
  - Mongolian cell, histology, 718
  - Mongolian spot, 714
    - clinical findings, 717
    - differential diagnosis, 718
    - origin of, 716
- N**
- National Institutes of Health Consensus Development Conference on Cesarean Childbirth, 555
  - Near-drowning, pail immersion accidents, 341
  - Neonatology, Spitzer's laws of, 733
  - Neurology
    - Arizona hinshawii* meningitis, 483
    - aseptic meningitis syndrome, bacterial infection and, 147
    - bacterial meningitis, repeat lumbar puncture in, 537
    - viridans streptococci and, 526
    - colloid cyst of third ventricle, sudden death due to, 218
  - Neurology
    - congenital neurologic malformations, a review, 565
    - enterovirus type 71 meningitis, CSF findings, 327
    - febrile convulsions, pyridoxine supplementation in, 208
    - Hemophilus influenzae* type B meningitis, 192
    - invasive meningococcal disease, 500
    - meningoencephalitis, primary amebic, 486
    - Wilms' tumor, intracardiac extension of, 359
  - Nevus(i)
    - blue nevus, 718
    - of Ito, 718
    - of Ota, 718

## SUBJECT INDEX

Niacin, common food sources, 636

### Nutrition

- carotenemia, 25
- copper deficiency anemia, prolonged IV feeding and, 226
- human milk banking, effect of refrigeration on cellular components, 31
- infant feeding through the ages, 613
- lactobezoar, 651
- historical perspective, 613
- minerals, 637
- newborn, breast-feeding patterns in Nigerian maternity center, 412
- pica, 783
- prolonged exclusive breast-feeding, iron sufficiency and, 625
- proteins, 636
- vegetarian, 632
- vitamins, 634
- see also* Breast-feeding

## O

- Oncology, septicemia in childhood malignancy, 320
- Ophthalmology
  - conjunctivitis due to *Shigella flexneri*, 231
  - epiblepharon, 661
  - ocular manifestations of fetal hydantoin syndrome, 475
- Oral contraceptives, Sydenham's chorea and, 804
- Orthopedics
  - bone and joint changes following burns, 734
  - congenital absence of radii, 479
  - congenital dislocation of hip, 513
  - hypophosphatemic rickets, acquired, 646
  - Perthes' disease after poliomyelitis, recognition and management of aseptic capital femoral necrosis, 19
  - pneumococcal arthritis and osteomyelitis, 105
  - pyogenic osteomyelitis vs. pseudo-osteomyelitis in Gaucher's disease, 667
- Ortolani test, in congenital dislocation of hip, 514
- Osteomyelitis
  - Citrobacter diversus*, 791
  - pneumococcal, 105
  - pyogenic vs. pseudo, in Gaucher's disease, 667
- Otitis media
  - acute, 549
  - acute suppurative, 99
  - persistent purulent, 445
- Otolaryngology
  - ethmoiditis due to *Shigella flexneri*, 231
  - otitis media, *see* Otitis media
- Overprotectiveness, 794
- Oxygen affinity, abnormal, hemoglobin variants with, 167

## P

- Pancreatitis, associated with cholecystitis and cholelithiasis in infectious mononucleosis, 131

- Paroxysmal supraventricular tachycardia in infant, dopamine infusion and, 541
- Patent ductus arteriosus, RBC survival in, 349
- Pavlik harness, in congenital dislocation of hip, 516
- Pediatric prenatal interviews, 778
- Penicillin G, in aspiration pneumonia, 117
- Pepsinogens, serum group I, in recurrent abdominal pain, 324
- Periodontitis, *Actinobacillus* endocarditis and, 653
- Peroneal nerve palsy, in premature infants, 591
- Perthes' disease, after poliomyelitis, 19
- pH, distal esophagus, in gastroesophageal reflux, 11
- Phosphorus, common food sources, 639
- Pica, psychosocial stress and, 783
- Pneumatic otoscopy, an aid to, 411
- Pneumonia(s)
  - ambulatory of childhood, 686
  - aspiration, 117
  - supraglottitis and, 740
- Poliomyelitis, Perthes' disease after, 19
- Pregnancy, teenage, 335
- Proteins, dietary, 636
- Provitamin A, *see* Carotene
- Pseudomembranous colitis, 212
- Pseudomonas aeruginosa*, bacterial endocarditis and, in child with tetralogy of Fallot, 144
- Psychiatry
  - in childhood asthma, 772
  - electric blanket syndrome, 279
  - psychogenic chest pain, 788
  - severe psychosomatic illness, 792
- Psychosocial pediatrics
  - grief process, the physician's role, 466
  - pica, 783
  - psychosocial functioning of young adults with cleft lip/palate, 459
- Psychosomatic illness, 792
- Pulmonary disease
  - in gastroesophageal reflux, 8
  - see also* Respiratory distress
- Pyrethrum, erythema multiforme and, 68
- Pyridoxine
  - common food sources of, 636
  - in febrile convulsions, 208

## R

- Rabies, United States—1980, 719
- Radiology, ambulatory childhood pneumonias and, 686
- Radionuclide gastroesophagography, 11
- Radionuclide studies
  - in goitrous hypothyroidism, 437
  - in thyroid disease, 440
- Records, patient-held, compliance and, 270
- Red blood cells(RBC), *see* Erythrocyte
- Respiratory distress
  - asthma and, 772
  - in gastroesophageal reflux, 12
  - supraglottitis and, 740
- Respiratory syncytial virus infection, 187

# SUBJECT INDEX

Respiratory tract  
 ambulatory childhood pneumonias and, 686  
 aspiration pneumonia in institutionalized children, 117  
 asthma, *see* Asthma  
 fatal pulmonary aspergillosis from contact with pigeons, 357  
 respiratory syncytial virus infection, 10-year follow-up, 187  
 Reye's syndrome, 505  
   causes, 506  
   pathology, 506  
   symptoms, 505  
   therapy, 507  
 Riboflavin, common food sources, 636  
 Rickets, acquired hypophosphatemic, 646  
 Robert Wood Johnson National School Health Program, 344  
 Rubella, congenital, 730

## S

Salicylate intoxication, in 16-day-old breast-fed infant, 53  
*Salmonella* species, enteric fever and, 448  
 Septic arthritis, *H. influenzae* type B, ampicillin-resistant, 139  
 Septicemia, in childhood malignancy, 320  
 Shake test, in hemoglobinopathies, 165  
*Shigella flexneri*, conjunctivitis and ethmoiditis due to, 231  
 Shigellosis, in institutionalized children, successful treatment, 127  
 Sickle cell disease, dactylitis in, 311  
 Sickle cell trait, growth status of children with, 705  
 SIDS Foundation, statement on terminology, 629  
 Social pediatrics  
   adoption planning for handicapped children, 292  
   mandatory seat restraint laws, 285  
   parents of handicapped children as consumers, 363  
   teenage pregnancy in perspective, 335  
   *see also* Psychosocial pediatrics  
 Sodium chloride (3%) test, in hemoglobinopathies, 166  
 Sodium intake, in diarrhea, 199  
 Sodium pertechnetate, thyroid uptake in goitrous cretinism, 437  
 Solubility test, in hemoglobinopathies, 165  
 Spitzer's laws of neonatology, 733  
 Spleen, trauma to, management, 364  
 "Spoiling" a baby, 798  
 Stress  
   pica and, 783  
   psychogenic chest pain and, 790  
 Streptococci, viridans, bacterial meningitis and, 526  
*Streptococcus pneumoniae*, arthritis and osteomyelitis due to, 105  
 Subcutaneous fat necrosis of newborn, 748  
 Superior mesenteric artery syndrome, 480  
 Supraglottitis, in pneumonia, 740  
 Sydenham's chorea, oral contraceptives and, 804  
 Syphilis, congenital, 81

## T

Thalassemia  
   indications for screening, 167  
   laboratory workup for, 168  
   screening for, 162  
 Thiamin, common food sources, 635  
 Thoracic outlet syndrome, 602  
 Thrombocytopenia, in neonatal infection, 402  
 Thyroid disease  
   goitrous hypothyroidism, 437  
   in vivo radionuclide studies, 437, 440  
 Tietze's syndrome, *see* Costochondritis  
 Tracheal atresia, congenital absence of radii and, 479  
 Trauma  
   to epiglottitis, foreign body removal and, 670  
   due to motor vehicle accidents, child restraints and, 285  
   potential for injury with piece of sports equipment, 488  
   splenic, management, 364  
 Trimethoprim-sulfamethoxazole (TMP-SMX), in shigellosis, 127  
 Triploidy syndrome, in liveborn, 806  
 Trisomy 13, partial, 534  
 Tumor(s)  
   fibroma, nonossifying, hypophosphatemic rickets and, 646  
   Wilms', 359

## U

Ultrasound, in fibromatosis, 595  
 Urea cellulose acetate electrophoresis, in hemoglobinopathies, 165  
 Urology, eosinophilic cystitis, 741

## V

VATER syndrome, tracheal atresia associated with congenital absence of radii, 479  
 Vegetarian nutrition, 632  
 Venereal disease, congenital syphilis, 81  
 Ventricular septal defect (VSD), RBC survival in, 349  
 Viridans streptococci, bacterial meningitis and, 526  
 Virus, respiratory syncytial, 187  
 Visual-reinforcement audiometry, 259  
 Vitamin A, common food sources, 635  
 Vitamin B<sub>12</sub>, common food sources, 637  
 Vitamin C, common food sources, 635  
 Vitamin E, common food sources, 635  
 Vomiting, in gastroesophageal reflux, 8

## W

Water intake, in diarrhea, 199  
 Weber-Christian syndrome, prolonged remission of, 521  
 White blood cells, in CSF, in enterovirus type 71 meningitis, 327  
 Wilms' tumor, intracardiac extension, 359

## Z

Zinc, common food sources, 638
